Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450**STATEMENT UNDER 37 CFR § 1.702(b)(2)**

Dear Sir:

1. This statement is respectfully submitted in support of the "Application for Patent Term Adjustment Including Request for Reconsideration Under 37 CFR §1.705(b)" for the above-referenced application. In view of the following, it is respectfully requested that Applicants be granted a minimum patent term adjustment of 508 days, with an additional term to be added based on the number of days following payment of the issue fee on August 11, 2006 to the date of issuance of a patent for the above-referenced application.

2. The patent term adjustment on the Determination of Patent Term Adjustment Under 35 U.S.C. §154(b) ("PTAS Sheet") that was attached to the Notice of Allowance is 0 days (a copy of the PTAS Sheet is submitted herewith as Exhibit A). This determination of 0 days is in error in that pursuant to 35 U.S.C. §154(b) the Office failed to take certain action within the time frame specified in 37 CFR §1.702(a) and failed to issue a patent within three years of the actual filing date of the above-referenced application in accordance with 37 CFR §1.702(b).

USSN 10/010,942

Group Art Unit: 1649

Pursuant to 37 CFR §1.703(a), Applicants are entitled to a period of patent term adjustment due to the failure by the Office to mail an action under 35 U.S.C. §132 not later than 14 months after the actual filing date (*i.e.*, by February 6, 2003) (hereinafter "14 Month Delay"). As the Office failed to mail an action under 35 U.S.C. §132 until September 24, 2003, Applicants are entitled to a period of patent term adjustment beginning on the day after the date that is 14 months after the date on which the above-referenced application was filed under 35 U.S.C. §111(a), *i.e.*, February 7, 2003, and ending on the date of mailing of an action under 35 U.S.C. §132, *i.e.*, September 24, 2003. Accordingly, the period of patent term adjustment due to the 14 Month Delay by the Office is 230 days, which is in agreement with the period calculated by the Office on the PTAS Sheet (Exhibit A, line 25).

In addition to the patent term adjustment due to the 14 Month Delay, pursuant to 37 CFR §1.703(b) Applicants are entitled to a period of patent term adjustment due to examination delay from the number of days in the period beginning on the day after the date that is three years after the date on which the above-referenced application was filed under 35 U.S.C. §111(a), *i.e.*, December 7, 2004, and ending on the date a patent is issued, (hereinafter "Three Years Delay"). As the issue date has yet to be determined, Applicants have calculated a minimum period of Three Years Delay of 613 days, based on a hypothetical issue date of August 11, 2006, the projected date of payment of the issue fee.

As set forth in 37 CFR §1.703(f), Applicants are entitled to a period of patent term adjustment equal to the period of examination delays based on the grounds set forth in 37 CFR §1.702 reduced by the period of time equal to the period of time during which Applicants failed to engage in reasonable efforts to conclude prosecution pursuant to 37 CFR §1.704 (hereinafter "Applicant Delay"). With respect to the above-referenced application, the total period of examination delays is the sum of the period of 14 Month Delay (230 days) and the minimum period of Three Years Delay (613 days), or 843 days, to the extent these periods of delay are not overlapping. As the period of 14 Month Delay ended on November 24, 2003, prior to the first day of the period of Three Years Delay, *i.e.*, December 7, 2004, Applicants submit that these periods are not overlapping. To calculate the period of patent term adjustment, the total period

USSN 10/010,942

Group Art Unit: 1649

of examination delay is reduced by the period of Applicant Delay, which Applicants have calculated herein as a period of 335 days (not 392 days as set forth in the PTAS Sheet (Exhibit A)).

Accordingly, Applicants submit that the correct patent term adjustment for the above-referenced application is at least 508 days, which is the difference between the total period of examination delay (843 days) and the period of Applicant Delay (335 days). Applicants further submit that the term of 508 days should be extended by an additional term equal to the number of days following payment of the issue fee on August 11, 2006 to the date of issuance of a patent for the above-referenced application in accordance with 37 CFR §1.703(b). As such, the correct patent term adjustment upon issuance of a patent is expected to be the sum of 508 days (as calculated herein) and the number of days from August 12, 2006 to issuance of a patent.

3. The factual bases for the above adjustment are set forth as follows:

A. Examination Delays Pursuant to 37 CFR §1.702 and §1.703

Pursuant to 37 CFR §1.703(f), the period of adjustment of the term of the patent under §1.702 is the sum of the periods of examination delay calculated under subparagraphs (a)-(e), to the extent that such periods are not overlapping, less the sum of the periods calculated under §1.704 (the period of Applicant Delay). In the above-referenced application, Applicants are entitled to a period of examination delay equal to the sum of the periods of delay under §1.703(a) and (b) for the reasons set forth below.

(i) "14 Month Delay" Pursuant to §1.703(a)(1)

In accordance 37 CFR §1.703(a)(1), Applicants are entitled to a period of patent term adjustment due to the failure by the Office to mail an action under 35 U.S.C. §132 not later than 14 months after the actual filing date (*i.e.*, by February 6, 2003). As shown in the PTAS Sheet (Exhibit A, line 25), the Office failed to mail an action under 35 U.S.C. §132 (a Restriction

USSN 10/010,942

Group Art Unit: 1649

Requirement) until September 24, 2003. As such, Applicants are entitled to a period of patent term adjustment beginning February 7, 2003 and ending on September 24, 2003, the date of mailing of the Restriction Requirement by the Office. Accordingly, the period of patent term adjustment due to the 14 Month Delay by the Office is 230 days, as shown on line 25 of the PTAS Sheet (Exhibit A, line 25).

(ii) "Three Years Delay" Pursuant to 37 CFR §1.703(b)

It is anticipated that the Office will not comply with the requirement of 35 U.S.C. §154(b) and 37 CFR §1.702(b), which requires issuance of a patent within 3 years after the date on which the application was filed under 35 U.S.C. §111(a). As indicated in the Notice of Allowance, a patent is projected to issue on November 28, 2006, but may issue earlier or later depending on the circumstances of publication. However, even assuming *arguendo* that a patent is issued on the same day as the projected date of payment of the issue fee (*i.e.*, August 11, 2006), said issue date would be 3 years and 613 days after the date on which the above-referenced application was filed under 35 U.S.C. §111(a). As none of the exclusionary periods set forth in 37 CFR §1.702(b) apply to the instant application and in accordance with 37 CFR §1.703, a minimum period of examination delay is calculated to be at least 613 days, based on the hypothetical issue date of August 11, 2006. This minimum period of examination delay is to be extended by an additional term equal to the number of days following payment of the issue fee on August 11, 2006 to the date of issuance of a patent. Accordingly, the entire period of Three Years Delay is the sum of the minimum period of examination delay of 613 days and the number of days from August 12, 2006 to the day of issuance of the patent.

(iii) Total Examination Delay Pursuant to 37 CFR §1.703(f)

As set forth in 37 CFR §1.703(f), the period of examination delay based on the grounds set forth in 37 CFR §1.702 is the sum of the period of 14 Month Delay (230 days) and the minimum period of Three Years Delay (613 days), or 843 days, to the extent these periods of delay are not overlapping. As the period of 14 Month Delay ended on November 24, 2003, prior to the first day of the period of Three Years Delay, *i.e.*, December 7, 2004, Applicants submit that these periods are not overlapping.

**B. "Applicant Delay" Pursuant to 37 CFR §1.704**

Pursuant to 37 CFR §1.704 the period of adjustment of the term of the patent due to examination delay is reduced by the period of Applicant Delay. As indicated on the PTAS Sheet (Exhibit A), the Office has calculated a period of Applicant Delay of 392 days. Applicants respectfully submit that the correct period of Applicant Delay is 335 days and seek correction based on the following remarks. A PTAS Sheet showing corrections by Applicants is submitted herewith as Exhibit C. A copy of the "Image File Wrapper Record" and "Transaction History" from Applicants' Private PAIR are submitted herewith as Exhibits B and F.

**(i) Applicant Delay for Responding to a Notice to File Missing Parts of March 1, 2002**

Applicants request correction of the initial period of Applicant Delay of 107 days (line 16 of Exhibit A) from the date of mailing of a Notice to File Missing Parts of the Application on March 1, 2002 (line 7 of Exhibit A) to September 16, 2002 (line 16 of Exhibit A), the date on which Applicants are alleged to have responded. Applicants submit that the correct period of Applicant Delay is 38 days, which is the number of days in excess of 3 months from the date of the Notice to File Missing Parts (*i.e.*, June 1, 2002) to the date on which a complete response was filed by the Applicants (*i.e.*, July 9, 2002). As evidenced by the enclosed copy of a postcard receipt (submitted herewith as Exhibit D), Applicants filed a complete response to the Notice to File Missing Parts, including a computer-readable sequence disk, via first class mail on July 1, 2002. The date-in stamp on the postcard receipt indicates that these documents and sequence disk were received by the Office on July 9, 2002. Copies of the Notice to File Missing Parts from March 1, 2002 as well as Applicants' response thereto from the Image File Wrapper Record are submitted herewith as Exhibit E. Additional evidence of receipt of Applicants' complete response on July 9, 2002 is shown on the Image File Wrapper Record (Exhibit B) from this date indicating "Applicant Response to Pre-Exam Formalities Notice", "Oath or Declaration Filed" and "CFR Sequence Listing Filed," among other entries. According to 37 CFR §1.704 (b), the period of Applicant Delay begins on the day that is 3 months after the date of the Notice to Comply (*i.e.*, June 2, 2002) and ends on the date the reply was filed by Applicants (*i.e.*, July 9, 2002) for a total of 38 days. For the reasons set forth in subsection B (ii) below, Applicants

USSN 10/010,942

Group Art Unit: 1649

submit that no other Applicant Delays accrued during the period from March 1, 2002 to September 16, 2002. As such, Applicants request correction of the initial period of Applicant Delay of 107 days (line 16 of Exhibit A) to 38 days (line 12 of Exhibit C).

(ii) Applicant Delay for Responding to a Notice to Comply with Sequence Listing of August 21, 2002

Applicants respectfully submit that the Office has improperly calculated the period beginning August 22, 2002 (the day following the mail date of a "Preexam Formalities Notice" by the Office on August 21, 2002 (line 12 of Exhibit A)) and ending September 16, 2002 (the date of a response to the Preexam Formalities Notice by Applicants (line 16 of Exhibit A) as an Applicant Delay. This alleged period of delay corresponds to the period for response by Applicants to a "Preexam Formalities Notice," a "Notice to Comply with Requirement for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" ("Notice to Comply with Sequence Listing") mailed August 21, 2002 (a copy of this Notice and Applicants response is submitted herewith as Exhibit G). As shown in Exhibit G, Applicants filed a response to the Notice to Comply with Sequence Listing via first class mail on September 16, 2002. The date-in stamp by the Office indicates that the response was received on September 20, 2002. Further evidence of receipt of Applicants' complete response on September 20, 2002 is shown on the Image File Wrapper Record (Exhibit B) from this date indicating "Response to Pre-Exam Sequence Notice" and "Sequence Listing," among other entries. Pursuant to 37 CFR §1.704(b), the period of Applicant Delay begins on the day that is 3 months after the date of the Notice to Comply with Sequence Listing (i.e., November 22, 2002) and ends on the date the reply was filed by Applicants. As Applicants filed a complete response to the Notice to Comply with Sequence Listing on September 20, 2002, within the three month grace period provided by 37 CFR §1.704(b), no Applicant Delay accrued.

Finally, it is respectfully submitted that the period of time from July 9, 2002 (the date of response by Applicants to the Notice to File Missing Parts) to August 21, 2002 (the date of mailing of the Notice to Comply with Sequence Listing by the Office) has been improperly calculated by the Office as a period of Applicant Delay. The alleged period of delay, a total of

USSN 10/010,942

Group Art Unit: 1649

43 days, corresponds to the time taken by the Office of Initial Patent Examination (OIPE) to process the response filed by Applicants on July 9, 2002. Applicants submit that the 43 day period is an examination delay by the Office and is not a delay by the Applicants pursuant to 37 CFR §1.704.

In view of the preceding remarks, Applicants submit that no Applicant Delays accrued during the period from July 9, 2002 to September 20, 2002. Accordingly, Applicants request correction of the initial period of Applicant Delay of 107 days (line 16 of Exhibit A) to 38 days (line 12 of Exhibit C), which is equivalent to the period of Applicant Delay beginning on the day that is 3 months after the date of the Notice to Comply (*i.e.*, June 2, 2002) and ending on the date the reply was filed by Applicants (*i.e.*, July 9, 2002).

(iii) Applicant Delay for Filing an Information Disclosure Statement

Applicants respectfully submit that an additional period of Applicant Delay of 12 days accrued for the delayed submission of an Information Disclosure Statement (IDS) on March 15, 2006 (see line 66, Exhibit C). This period is not shown on Exhibit A, the PTAS Sheet from the Office. As shown on Exhibit C, an IDS was filed without a statement under 37 CFR §1.704(d), 12 days after the filing of a response by Applicants to an office action on March 3, 2006. Pursuant to 37 CFR §1.704(c), this 12 day period should be considered an Applicant Delay and should be added to the period of delay by Applicants.

(iv) Other Entries Which Do Not Add to the Period of Applicant Delay

Applicants submit that there are several inconsistencies between entries shown on the PTAS Sheet (Exhibit A) and those shown on the Image File Wrapper Record (Exhibit B). In particular, Applicants direct the attention of the Office to Applicants' Petition to Correct Inventorship under 37 CFR §1.48(a) and accompanying Oath and Declaration filed on April 3, 2006. The Oath and Declaration is shown on Exhibit B, but does not appear on the PTAS Sheet (Exhibit A). According to MPEP 2732, oaths and declarations are examples of "other paper" that may generate reductions pursuant to 37CFR §1.704(c) (10) if such papers are filed after a Notice of Allowance is mailed or given. However, as Applicants filed the Oath and Declaration

USSN 10/010,942

Group Art Unit: 1649

on April 3, 2006, well before the Notice of Allowance mail date of May 11, 2006, and this submission is not believed to otherwise delay the processing or examination of the application (as evidenced by the issuance of a Notice of Allowance 38 days following receipt of the Oath and Declaration), it is not believed to be an Applicant Delay as defined by 37 CFR §1.704.

In addition to these inconsistencies, Applicants also wish to point out that the entries of May 10, 2006 and May 11, 2006 on the PTAS sheet entitled "Formal Drawings Required" and "Mail Formal Drawings Required," respectively, are erroneous. These entries do not appear in the Image File Wrapper Record (Exhibit B) and Applicants did not receive a paper copy of a request for formal drawing from the Office. Applicants contacted Examiner Ballard on August 1, 2006, in which she confirmed that she did not issue a notice for formal drawings and that the entry on the PTAS Sheet was erroneous. Applicants were informed by the Examiner that the Office would seek appropriate correction of these erroneous entries related to formal drawings. As shown in the Transaction History from Applicants Private PAIR (Exhibit F), the Office entered "**Correction-Drawing NOT required**" on August 8, 2006, thereby acknowledging the erroneous entry in the PTAS Sheet. The preceding inconsistencies in the PTAS Sheet are noted in Exhibit C and appropriate correction by the Office is respectfully requested.

(v) Calculation of the Total Period of Applicant Delay

In view of the above, Applicants have calculated a total period of Applicant Delay of 335 days which is the sum of the following Applicant Delays shown in Exhibit C: (i) the 38 day period from June 2, 2002 to July 9, 2002 (lines 9-11); (ii) the 79 day period (line 29); (iii) the 92 day period (line 35); (iii) the 20 day period (line 39); (iv) the 30 day period (line 44); (v) the 5 day period (line 51); (vi) the 59 day period (line 63); and (vii) the 12 day period from March 3, 2006 to March 15, 2006 (lines 63-66). Applicants respectfully submit that the correct period of Applicant Delay is 335 days, not 392 days, and request appropriate correction by the Office.

C. Calculation of Correct Patent Term Adjustment Pursuant to 37 CFR §1.702(f)

As set forth in 37 CFR §1.703(f), Applicants are entitled to a period of patent term adjustment equal to the period of examination delays reduced by the period of Applicant Delay. Therefore, Applicants submit that the correct patent term adjustment for the above-referenced application is at least 508 days, which is the difference between the total period of examination delay (843 days) and the period of Applicant Delay (335 days). Applicants further submit that the term of 508 days should be extended by an additional term equal to the number of days following payment of the issue fee on August 11, 2006 to the date of issuance of a patent for the above-referenced application in accordance with 37 CFR §1.703(b). As such, the correct patent term adjustment upon issuance of a patent is expected to be the sum of 508 days (as calculated herein) and the number of days from August 12, 2006 to issuance of a patent.

4. In accordance with 37 CFR §1.705(b)(2)(iii), Applicants submit that the pending patent corresponding to this application will not be subject to a terminal disclaimer.

In view of the foregoing, it is respectfully requested that this Application for Patent Term Adjustment be favorably considered and that a corrected Determination of Patent Term Adjustment be issued to reflect a minimum patent term adjustment of 508 days, with an additional term to be added based on the number of days following payment of the issue fee on August 11, 2006 to the date of issuance of a patent for the above-referenced application.
